Workshop 19/8-2022

Speculative Design

- Design Idé
- ” This form of design thrives on imagination and aims to open up new perspectives on what are sometimes called *wicked problems*, to create spaces for discussion and debate about alternative ways of being, and to inspire and encourage people’s imaginations to flow freely. Design speculations can act as a catalyst for collectively redefining our relationship to reality.”

  Anthony Dunne & Fiona Raby, 2013

Problem Frygt

Chris McKenna:

“De sagde, at forandringen accelererede I 1900.
De sagde det I 1920. I 1940, I 1960, I 1980 og I 2000.
Så formodningen er, at folk, der sagde det før, tog fejl,
men at vi har ret lige nu.”

Geoffrey Jones, erhvervshistorie, Harvard:

”Hvis vi tænker på for eksempel fysisk transport og hvordan vi flytter ting rundt i verden, så har den teknologi næsten ikke forandret sig i 30 eller 40 år. Vi har stadig de samme fly, og vi transporterer stadig vores varer i store skibe. Og vi har stadig ikke helbredt kræft.”

Nithin Nohria, Harvard rektor:

”Hvis du siger, at alting vil mere eller mindre være det samme, hvorfor skulle folk så være opmærksomme?”

There's something that doesn't make sense. Let's go and poke it with a stick.
